**CLINITONE
SKIN REJUVENATION SYSTEM**

\$45.00 PER TREATMENT
Reg. \$60.00

Many factors contribute to our skin aging?

- Excessive sun exposure, pollution, and alcohol
- Cigarette Smoking
- Heredity

How can CLINITONE HELP?

- Exfoliates dead cells by chemical exfoliation
- Unclogs and drains pores
- Penetrates into the lower skin layer and encourages **COLLAGEN, ELASTIN** production and increases the **MOISTURE MOLECULE** production
- The product contains **Vitamin A, C, and E**
 - Vitamin A is an antioxidant that enhances cell immunity
 - Vitamin C increases the rate of collagen production
 - Vitamin E improves blood circulation and accelerates healing
- Improves the following skin conditions:
 - Wrinkles
 - Large Pores
 - Sun Damage
 - Oily Skin/ Acne
 - Dark Spots
 - Sagging Skin
 - Dry Skin
 - Razor Bumps

Why Glycolic Acid and Vitamin A, C, and E Therapy?

These ingredients are the most effective for deep skin repair and true skin rejuvenation.

GLYCOLIC ACID is the most effective of all the fruit acid because it has the smallest molecular size and can penetrate into the skin faster and deeper through the pores.

Precautions when using CLINITONE Products:

- Don't scrub skin harshly before treatment
- Don't use Retin-A 48 hours prior to treatment
- Don't use on irritated skin
- Don't use on skin that has been waxed within 24 hours
- Avoid shaving prior to treatment
- Avoid sun exposure 24 hours prior to treatment
